

Open Design Engine - Support # 31: Install SSL support to live ODE server

Status:	Closed	Priority:	Urgent
Author:	J. Simmons	Category:	
Created:	05/08/2011	Assignee:	
Updated:	05/25/2011	Due date:	
Subject:	Install SSL support to live ODE server		
Description			
Research, purchase, and configure a signed SSL cert. Once done, configure http to redirect to https for all paths. Be sure to test SVN over https.			

History

05/12/2011 03:06 pm - J. Simmons

- Target version changed from v0.2 - Public Beta to v0.1 - Private Alpha

05/15/2011 10:32 pm - J. Simmons

Looking into SSL cert costs at [Geotrust](#).

05/25/2011 06:10 pm - J. Simmons

- % Done changed from 0 to 70

SSL is now configured using a 30 day demo cert from geotrust. Just need to come back tonight and buy and install real cert.

05/25/2011 10:48 pm - J. Simmons

- Status changed from New to Closed

- % Done changed from 70 to 100

1 yr cert purchased and installed.
