

Open Design Engine - Feature # 106: Ability to Collapse Subprojects List

<b>Status:</b>	New	<b>Priority:</b>	Low
<b>Author:</b>	Jeremy Wright	<b>Category:</b>	
<b>Created:</b>	01/13/2013	<b>Assignee:</b>	
<b>Updated:</b>	01/13/2013	<b>Due date:</b>	
<b>Subject:</b>	Ability to Collapse Subprojects List		
<b>Description</b>			
<p>The Projects page would be cleaned up considerably if the sub-projects listed under each main project could be collapsed. It would be similar to the way sub-directories are listed in a file manager program on Linux, Windows, or MacOS, and can be collapsed so that you only see the parent directory.</p>
