Subject:	Updates to the repository don't show up on "Activity" tab automatically		
Description			
I have noticed that when I make push changes to my repository, those changes are not reflected on the "Activity" tab until I manually visit the "Repository" tab in my browser. Then, if I go back to the "Activity" tab, the updates to my repository show up.

Thank you for the feedback. I think I know why this is happening, and will be looking into how to address it as soon as I resolve a couple of other issues.
