Subject:	Add wiki external format plugin as basis for wiki enhancements		
Description			
<p>Evaluate this plugin for use in wiki. Possible features it would support include:</p> <ul style="list-style-type: none">- LaTeX style equations- UML diagrams- Embedded graphs- Videos(?) - see comments <p>Need to look at how the underlying programs relate to the ODE distro and what will need to be placed in SVN to distribute this feature.</p>
