

Open Design Engine - Feature # 191: Allow Voting For Features

Status:	New	Priority:	Low
Author:	Jeremy Wright	Category:	
Created:	09/21/2013	Assignee:	
Updated:	09/21/2013	Due date:	
Subject:	Allow Voting For Features		
Description			
I'm constantly wanting to +1 some feature requests, and I think this would also be a good first step towards community-based prioritization of feature requests.

+1 - err, I mean this is a good idea. And apparently the Redmine user community agrees, though it appears development support has been spotty. Check out these links.

- http://www.redmine.org/plugins/redmine_vote
- <http://www.redmine.org/issues/1011>
- https://github.com/dextra/redmine_issues_poll - looks like this is the plugin which is still under active support/development
