Subject:	Running install of ODE seems to be having problems sending status updates		
Description			
<p>I have noticed I am not getting emails when projects I am in have various updates (forum posts, wiki edits, etc), even when my email setting is: "For any event in all of my projects". Note, I do have the check box "I don't want to be notified of changes that I make myself" checked, but I would still expect to see something when other people post. I wonder if there is a cron job that should be running but is not.</p>			

History

08/19/2011 02:06 pm - Admin Administrator

Updated Email Notification Settings (Administration->Settings->Email Notifications) to send emails for more events. Specifically:

- Issue added
- Issue updated (and all its sub-events)
- News added
- Message added

08/19/2011 02:11 pm - Admin Administrator

- Status changed from New to Resolved

Updates to email notification settings corrected the problem.
