Subject:	Add wiki external format	Add wiki external format plugin as basis for wiki enhancements		

#### Description

Evaluate this <u>plugin</u> for use in wiki. Possible features it would support include:

- LaTeX style equations
- UML diagrams
- Embedded graphs
- Videos(?) see comments

Need to look at how the underlying programs relate to the ODE distro and what will need to be placed in SVN to distribute this feature.

## History

## 05/12/2011 03:24 pm - J. Simmons

- Target version changed from v0.2 - Public Beta to v0.4 - Wiki Enhancements

## 04/29/2014 07:47 pm - Christopher Sigman

- Status changed from New to Closed

This plugin is no longer supported, and does not work in the 2.X series (current) of redmine.

#### 04/30/2014 12:55 pm - J. Simmons

Again, a shame.... We should be on the look out for how else we can improve wiki functionality, especially as it relates to print quality documentation.
