Updated:	02/10/2012	**Due date:**	
Subject:	Add wiki page templates		

Description

There will be many common types of wiki pages (meeting minutes, Bills of Materials, assembly instructions, etc). ODE should support templates for these common types of wiki pages. The templates should be sharable (link on page create by template, plus searchable on site), and be markable as "featured" so the best practices can spread through the community.

- Target version changed from v0.2 - Public Beta to v0.4 - Wiki Enhancements

02/10/2012 04:58 am - Admin Administrator

There is a plugin for this now - http://www.redmine.org/plugins/gsc_templates
