Open Design Engine - Feature # 25: Add tagging support to projects and their modules

Status:	New	**Priority:**	Normal
Author:	J. Simmons	**Category:**	
Created:	04/09/2011	**Assignee:**	
Updated:	11/07/2013	**Due date:**	
Subject:	Add tagging support to projects and their modules		

Description

Tagging for issues should be tied to Feature #21. Project tags should be inherited by children and parent projects (this project + parent project tags). Wiki pages should also be taggable.

- Estimated time set to 24.00

There are Redmine plugins which might help

- [Issue Tagging](#)
- [Issue & Wiki Page Tagging](#)

Neither tag projects.
